Silk Road Trade Items

For our Silk Road Simulation activity, you must bring in items to trade with other students. Think of things that your classmates would want to trade for. You will **not** get these items back. You will get to keep the items that you have at the end of the activity.

The person from each class who collects the highest number of different items and the person who collects the most total items will each win a prize. Think of items that would be valuable to your classmates. Items can be purchased or handmade. Be creative!

Please make sure to follow these guidelines

- Your items must fit in a **closed** gallon bag.
- Your items must all be of the same type (ex: all pencils, or all suckers, or all erasers, etc)
- If you bring in food items, they must be individually wrapped. Please do not bring anything with tree nuts or peanuts.
- Items will be passed around the classroom, so please do not bring anything fragile.
- You must bring exactly enough items for each person in your class. See the class numbers below.
- Write your initials on each item.
- Write your full name and class period on your closed gallon bag.

You will receive an assignment score for bringing your items in on time. You will also receive a participation grade during the activity.

The items are due by **Monday, April 9**.

<u>Class Sizes</u>
1st- 29
2nd- 17
3rd- 29
4th- 20
5th- 21
7th- 31
